

The molecular data indicate that *Ackermania*, *Benzingia*, and *Chondrorhyncha reichenbachiana* should be treated as a single genus. A fungal genus bears the name *Ackermannia* Pat., differing by only one letter. The priority of these two names is currently awaiting clarification by the IAPT, but the controversy is moot for our purposes here. *Benzingia* Dodson has priority over *Ackermania*; therefore, we transfer all species of this clade into *Benzingia*.

Type: *Benzingia hirtzii* Dodson *ex* Dodson, *Lindleyana* 10(2): 74. 1995.
