

Pleurothallis cruciformis *Ames, Hubbard & Schweinfurth, nom. nov.*

Restrepia Reichenbachiana Endres apud Reichenbach filius in Gard. Chron. n.s. 4 (1875) 356.

Barbosella Reichenbachiana Schlechter in Fedde Repert. Beihefte 19 (1923) 26.

We consider that this species belongs in *Pleurothallis*. In transferring it to that genus a new name is rendered necessary owing to the already existing *P. Reichenbachiana* Schltr. (1921). The new name refers to the cross-like appearance of the flower.
