

5. HEXADESMIA micrantha.

H. micrantha ; racemo multifloro, bracteis linearibus acuminatis membranaceis, sepalis acuminatis, labelli trilobi laciniis lateralibus rotundatis intermediâ apiculatâ.

The flowers of this are very much smaller than even those of *H. crurigera*, and white with a very little green. It is from Guatemala, and is the no. 389 of Messrs. Loddiges' catalogue.
